

AB 80

AB YACHTS
BETTER THAN BEST

IMAGINE FLYING OVER WATER AT 58 KNOTS

Winner of BEST EXTERIOR DESIGN at the World Yachts Trophies, the AB 80 is a high-quality project designed for an exacting owner who desires independence at the helm and can be easily used for both long family cruises and as a luxurious day boat with impressive performance and absolute comfort.

Imagine arriving in Sag Harbour or the Hamptons in just an hour and a half from Manhattan, or leaving the office in Barcelona to get to Mallorca right on time for a business lunch or to play golf.

All of this is now possible, in total comfort and with no vibration on board, on a fast cruiser with a maximum speed of 58 knots. Its planing hull is like a blade that cuts through water while maintaining total control, safety, and manoeuvrability, even at a high speed.

On the main deck, the beautiful salon is illuminated by 360° of natural light

and is directly connected to the aft cockpit in one large, harmonious open space, thanks to the meticulous design of doors that open completely. The interior spaces are entirely customized and one of a kind, using only high-quality and carefully selected materials.

This superb yacht accommodates 8 guests and 2 crew members with a total of three cabins and 1 crew cabin. The propulsion system provides 2 MJP steerable waterjets + 1 MJP central booster coupled with 3 MAN V12 engines of 2000 hp each. Steering a yacht like this is the experience of a lifetime; and by using pure instinct, it feels like your body and hands become one with the throttle.

Technological innovation is the primary feature of AB YACHTS, proving once again to be the worldwide leader in waterjet propulsion cruisers.

Better than best.
